Message from HOD

Dr. Vinodh P Vijayan
HOD,CSE

The Department of Computer Science & Engineering has always been a centre of excellence and works smart to pioneer all the modern trends in technology. Its really a moment of pride that we were able to use the technology to assist us to manage the academics amidst the adverse condition prevailing in the state due to covid disease spread for the past one year.

Through the online platforms for webinars and virtual labs and the use of technical proficiency of faculty members we were successful in rendering important concepts and practical experiences virtually but effectively. The department has organized many programmes this time to enrich the students with skill and know how regarding the trending technology like IOT,

blochchain,Machine Learning, Artificial Intelligence ,Cloud and so on.

Its indeed a great achievement that many reputed companies had visited our college and offered courses for students to improve their competency in the light of industry requirement.

The research activities and innovation under our faculty coordinators really deserve appreciation as this helped lots of students grab opportunities in firms making use of recent technology.

Apart from the placement records, the students also came up with flying colors in final year university examination is really a

milestone in the history of the department .The sincerity and hard work of the faculty handling the subjects as well as the proper monitoring by class tutors adds fuel to the student academic performance.

Within the coming two years, the Department is expected to enter into a new era of education which is priceless when compared to the other institutions working with computer science and technology.

The enthusiasm of faculty as well as the students will surely makes the ground for technical advancements as well as the academic excellence in the near future.

WORKSHOP ON "NETWORKING/CLOUD COMPUTING & GOOGLE APPS"

- As a part of community interactions, the Department of CSE has organized a workshop on “Networking/Cloud Computing & Google apps”. The workshop was lead by the senior faculty members of the Department on 7th of January 2020. VHSE students from various reputed schools in Kottayam took part in the event and had given good feedback on the sessions pin pointing each and every topics.

ALUMNI MEET 2020

The Alumni meet for the year was conducted on 26th of January 2020 with utmost pleasure and eminence. Around 100 pass out students been a part and parcel of this programme. The respected Chairman of the College, Engineer Biju Vargese made the presidential address and expressed his sincere wishes to the alumna and also pointed out the importance of such a get together. Class tutors of all pass out batches interacted with their students and shared there mesmerizing memories they had with the students. The day was really a memorable experience for the alumna as well as all the members of CSE family.

GOOGLE CLOUD STUDY JAM

- We were fortunate to have the representatives from the worlds ever best and technical giant “The Google” at our premises. On the 3rd of February 2020, Google offered a hands on session on the Google Cloud Platform as an igniter to start the journey to the dream of students who aspire becoming an Associate Cloud Engineer in the prestigious company, The Google.
- The Resource Persons were Mr. Ankur Sharma and Mr. Mayur Rathi from Google, Pune. The students were provided with the logins to the GCP and they got a real feel of the platform and experienced the quality and proficiency of the service offered by Google Cloud for customers including the most reputed firms around the globe.
- The session is surely going to help the students in their future endeavors in relation to the advanced Cloud tech-

nology

The audience of the session were the higher semester students in CSE .The students were deeply moved by the informative and thought instilling session and at the end of the session they shared their experience during the session and expressed their gratitude towards the resource persons Mr Ankur and Mr Mayur for their gentle rendition of technics in cloud platform (GCP) .

SEMINAR ON "OPPORTUNITY FOR INTERNATIONAL STUDENTS IN COMPUTING AND HIGHER STUDIES"

- The collaboration with foreign universities and industries had been a guiding force for the Department in all its innovative approaches. On 4th of February 2020 a team led by Dr. Phil Vines, RMIT university, Australia and Mr. Abhishek Tulsian, Country Head (Recruitment), South Asia, RMIT delivered a seminar on “ Opportunity for International Students in Computing and Higher studies”

DAKSHA 2020

The Technical Fest “Daksha 2020” organized by Department of Computer Science & Engineering on 6th to 8th of February 2020 has grabbed the attention of the students from guest colleges. The success of the event is the sole credit of our students who had burned the

midnight oil for the flawless conduct of the programmes. The Project Expo, Seminar presentations, Debugging Were the major attractions amongst the list of all events. The Head of the Department and the faculty were so keen in the timely conduct of all events.

WORKSHOP ON "ENTREPRENEURSHIP AND PROJECT MANAGEMENT SKILLS"

It is indeed a boon for the budding talents who are to find a space in the Industry and also dreaming at starting new ventures, to have the experts from industry sharing their experience. Ms. Binu Sachin from IBM India Pvt. Ltd. Bangalore offered a session on Entrepreneurship and project management skills. The session was motivating and instilled

new ideas in them to become an entrepreneur in the near future. The session was interactive and was effective in extracting inputs associated with the context, from the students. The ideas proposed by students were really appreciable as per the comments from the resource person.

CYBER DISEASE -NATIONAL LEVEL CTF EVENT ON ETHICAL HACKING

The security in the network is always a main area of concern from the very beginning of resource sharing. There have been attempts in nabbing credentials from individuals and companies by third party. Stealthy attacks are now most prevalent in networks. This event on Ethical hacking is a humble step forward to enhance network security by equipping young talents to build applications for secure and safe networking.

The agenda of the event constitutes revealing the loopholes in network protocols that makes the network insecure and prone to attacks.

The event was conducted on 18th-19th of February 2020 in association with izindia and AKAAR-IIT Bombay.

REBOOT KERALA HACKATHON

The students of the Department got the golden opportunity to take part in the reboot kerala Hackathon 2020 held at Malappuram. The presentation of the students got great acceptance from the judging panel.
