**NOTICE**

The elective subjects selected for the eighth semester students are given below.

**EIGHT SEMESTER**

COURSES OFFERED	NO OF STUDENTS OPTED	
<b>PROGRAM ELECTIVE III</b>		
ECT 414 BIOMEDICAL ENGINEERING	33	3
<b>PROGRAM ELECTIVE IV</b>		
ECT 416 MODERN COMMUNICATION SYSTEMS	31	5
<b>PROGRAM ELECTIVE V</b>		
ECT 448 LOW POWER VLSI	30	6

The following faculties are allotted for handling the subjects

SL NO	SUBJECT	BATCH	NO OF STUDENTS	NAME OF FACULTY
1	ECT 414 BIOMEDICAL ENGINEERING (PROGRAM ELECTIVE III)	A	36	Ms. NEETHAN ELIZABETH ABRAHAM
2	ECT 416 MODERN COMMUNICATION SYSTEMS (PROGRAM ELECTIVE IV)	A	36	Dr. DEEPTHY MARY ALEX
3	ECT 448 LOW POWER VLSI (PROGRAM ELECTIVE V)	A	36	Ms. APARNA JOSE

### **Guide lines passed to students for the selection of Elective.**

All students shall choose four elective subjects, one in the sixth, one in the seventh and two in eighth semesters from a set of elective subjects prescribed in the syllabus and offered by the institution. There should be at least 25% students of the class for an elective subject to be offered. However, any student having a CGPA of not less than 7.5 shall be permitted to select an elective of his/her choice and register under a faculty subject to the permission from the faculty and Head of Department. The student will have to study this subject on his own (self-study mode) or the classes of this subject shall be taken during off-hours.

A student can opt for interdisciplinary electives, termed as global electives in the syllabus, maximum one during 8th semesters subject to the permission from both Heads of Departments and the faculty handling the elective subject. Minimum number of students for a global elective shall be 15 and maximum 60. New electives may be introduced according to the needs of emerging fields in technology. The name of the elective and its syllabus should be approved by the university before the subject is offered as an elective. Students are given copy of elective syllabus. Concerned faculties give small introduction of each module in the syllabus. Based on this students will select the elective subject. We prepared list of students for each elective and this is signed by HOD

## Guide lines to students for the selection of Elective.

All students shall choose four elective subjects, from a set of elective subjects prescribed in the syllabus and offered by the institution. There should be at least 25% students of the class for an elective subject to be offered. However, students can choose their interest higher may select an elective of their choice, provided they have permission from the faculty and Head of Department, and the department will conduct classes for this elective. The classes of this subject shall be taken by the department.

The department envisages to offer a learner an opportunity to earn proficiency in one of the three trending areas in Artificial Intelligence & Machine Learning, namely Security in Computing, Computer Programming and Machine learning Infrastructures. Three courses each from the above areas are included through Elective Courses in different Elective Buckets. For example, a learner who is interested in the Computer Security area may opt to take the elective courses - Foundations in Security in Computing from Elective-I in S6, Security in Computing from Elective-II in S7 and Network Security Protocols from Elective-III in S8. The Department may offer Elective Courses to enable students to utilize this opportunity, depending on the availability of faculty. The courses included from these areas under various Elective Buckets are shown in the table below.

DIFFERENT SPECIALIZATIONS INTRODUCED THROUGH VARIOUS ELECTIVE BUCKETS				
BUCKET	SPECIALISATION	SEMESTER		
		S6	S7	S8
1	SECURITY IN COMPUTING	FOUNDATIONS OF SECURITY IN COMPUTING (E-I)	SECURITY IN COMPUTING (E-II)	NETWORK SECURITY PROTOCOLS (E-III)

Guide lines passed to students for the selection of Elective.

All students shall choose four elective subjects, one in the sixth, one in the seventh and two in eighth semesters from a set of elective subjects prescribed in the syllabus and offered by the institution. There should be at least 25% students of the class for an elective subject to be offered. However, any student having a CGPA of not less than 7.5 shall be permitted to select an elective of his/her choice and register under a faculty subject to the permission from the faculty and Head of Department. The student will have to study this subject on his own (self-study mode) or the classes of this subject shall be taken during off-hours. A student can opt for interdisciplinary electives, termed as global electives in the syllabus, maximum one during 8th semesters subject to the permission from both Heads of Departments and the faculty handling the elective subject. Minimum number of students for a global elective shall be 15 and maximum 60. New electives may be introduced according to the needs of emerging fields in technology. The name of the elective and its syllabus should be approved by the university before the subject is offered as an elective. Students are given a copy of elective syllabus. Concerned faculties give small introduction of each module in the syllabus. Based on this, students will select the elective subject. We prepared list of students for each elective and this is signed by HOD.

**Sub: B.TECH S7 EEE ELECTIVE REGISTRATION FOR ODD SEMESTERS JUL - DEC, 2023**

All the students of semester-VI are directed to register for their electives in the upcoming semesters-VII. For registration, submit your elective options to the class in charge on or before **29<sup>th</sup> June 2023**.

The list of available electives as per the university syllabus is following.

Elective I		
Offered By Parent Department	Global/Interdisciplinary Electives	Offered by
EET413 ELECTRIC DRIVES	NIL	EEE
EET423 DIGITAL CONTROL SYSTEMS		
EET433 MODERN OPERATING SYSTEMS		
EET443 DATA STRUCTURES		
EET453 DIGITAL SIGNAL PROCESSING		
EET463 ILLUMINATION TECHNOLOGY		
EET473 DIGITAL PROTECTION OF POWER SYSTEMS		
Elective II		
ECT415 MECHATRONICS	Interdisciplinary	ECE
ECT425 BIOMEDICAL INSTRUMENTATION		
EET445 IoT & APPLICATIONS		

**NOTE:** The elective subject will be offered by the department only when the number of students registered for a particular subject matches with the criteria prescribed by the university. Contact the class in charge to confirm whether a course will be offered.
